FENCE

ABOUT US

All Island Fence & Railing has over 25 years experience. Our goal was and still is to be Long Island's full service fence & railing company for residential and commercial work. We want to provide our customers with the best quality products, the best price, and at the same time provide an excellent customer service experience from start to finish.

We offer a complete line of high quality fence and railing systems, in both traditional and unique styles. Our full line of products include P.V.C, vinyl, wood, rockwall, chain-link, ornamental steel, aluminum fences, railings and automated gates for residential, commercial and industrial applications.

We sell & service all types of fence and railing installations, along with over-the-counter materials.

For Do-It-Yourselfers – we will help you design & layout your fence/railing project to make for an easy & affordable experience, with impressive results.

Contractors – Please come on in to our showroom 1320 Motor Pkwy, Islandia, NY 11749 and place your orders. We look forward to doing business with you and helping you have a successful season.

ABOUT OUR PVC

All Island Fence uses the best products for all of our PVC fence installations. Our PVC Fence is manufactured in state-of-the-art facilities by us and manufactured right here on Long Island, NY.

Most of our Vinyl Fences offer a “good neighbor” design. What this means is that the fence panels feature the same exact look, and feel on both sides of the fence. Our PVC fence installation line offers Privacy Panels, Semi-Privacy Panels and Contemporary Picket Fence designs. Our PVC Fences come in a variety of different colors, White, Beige, Gray and Adobe, you can customize your fence style and mix-and-match colors to your preference. All PVC fence products are maintenance free, and are backed by a lifetime guarantee on the material against manufacturer’s defects and our 10 year labor warranty.

All of our PVC fence panels are inter-locking (there is no hardware on the fence panels) and each panel has a steel reinforced bottom rail. Most fence styles are available in 3’, 4’, 5’, & 6’ high x 8’ wide. Certain styles can be ordered in special heights 8’-10’-12’ high depending on location and town regulations.

PVC COLORS

All Our Standard Color PVC is Mono-Extruded

Standard Mono-Extruded

Co-Extruded | Most Colors Can be Matched if Sample is Provided

NEW TIMBER FINISH PVC

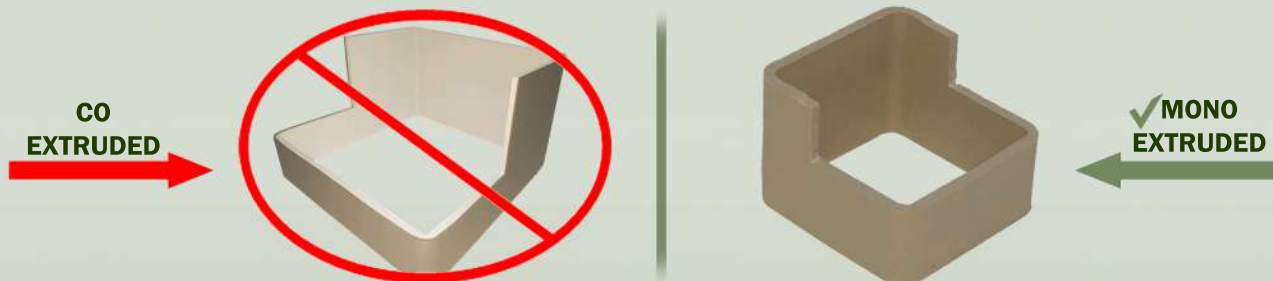

Available Only in Standard Colors

White, Gray, Tan, & Adobe

NEW EMBOSSING TECHNOLOGY

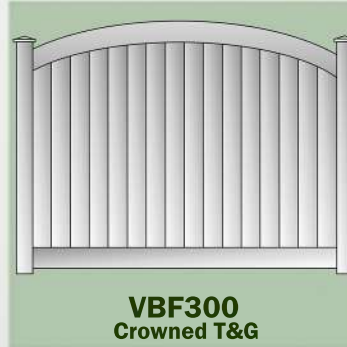

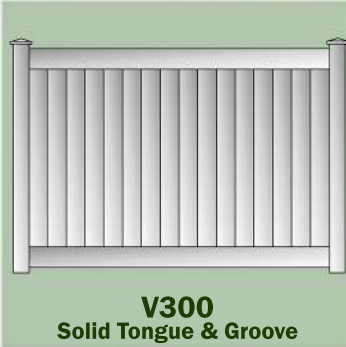

We are introducing the Timber Finish for our PVC fencing & railing systems. We have redesigned our vinyl profiles to have sharper edges with crisper corners, along with no sink or rib lines. The Timber Finish has a more contemporary matte look to it, as opposed to the usual glossy look. All our PVC is mono-extruded (color through) and made with virgin materials.

ALUMINUM FENCE

DURABLE CONSTRUCTION

Our aluminum is strong and built to handle extreme temperatures as well as withstand heat, snow, and rain. Where applicable, a full-length vinyl liner in both upper and lower railings prevents metal-on-metal rattling. And every piece of our aluminum railing is tested to ICC standards.

LOW-MAINTENANCE ALUMINUM

Our aluminum railing is built to last and powder-coated with AAMA 2604 standard coating to ensure that it won't fade or lose its gloss. Unlike steel, wrought iron, or wood, aluminum doesn't require regular painting to prevent rusting or rotting. Customers need only to occasionally clean the railing and balusters with water and detergent, and our aluminum railing will maintain its appearance and function for years.

VERSATILE DESIGN

With so many balusters, colors, trim, and accessories to choose from, the final product really is one-of-a-kind. Our aluminum estate fencing gives customers the ability to match their railing to their surroundings and taste, without having to choose between the estate fencing they want and the estate fencing they can afford.

Certastucco

Bufftech's TrueTexture™ finish is molded from real wood, stone and stucco to deliver the most authentic look available today. Bufftech's realistic woodgrain textures and rich shades replicate the look of natural wood without the maintenance. Bufftech's innovative alternative to traditional masonry and stucco walls won't crumble, peel, chip or crack due to settlement, or stain like traditional walls.

COLORS:

The performance of Bufftech's darker colors and stain blends with their proprietary ColorLast® fade protection, a state-of-the-art formulation that provides superior protection from the harsh rays of the sun.

CUSTOM PROJECTS

WHY PICK US

Angie's List
CERTIFIED

4.5 ★★★★★

4.5

"Great job!!! They were wonderful and accommodating from the estimate to the installation process. I can not say that enough, I would absolutely recommend them to anyone."

Debra of Ronkonkoma

"Everything went well with this contractor. The estimator arrived on time and negotiated a fair price for the job on the spot. A second installer came by a few days later to take final measurements and also took a few pictures of the job. On installation day the 2 guys came on time and completed the installation in about 4 hours. They cleaned up nicely after themselves. The railings look great and so far we are very happy with the result!"
